

Mark F. Lew, MD, received his medical degree from George Washington University in Washington DC, where he also served his Internship in Internal Medicine. He completed his Residency in Neurology at Los Angeles County+University of Southern California Medical Center and his Fellowship in Movement Disorders at the University of Southern California in Los Angeles. He is a Fellow of the American Academy of Neurology and holds Board Certification from the American Board of Psychiatry and Neurology.

Dr. Lew joined the faculty of the Keck School of Medicine of the University of Southern California in 1991, where he now holds the position of Professor of Neurology, Vice Chair of the department of Neurology and Director of the Division of Movement Disorders. At present, he is also the Director of the Movement Disorders Clinic at Los Angeles County+University of Southern California Medical Center. He also holds the Joseph P. Van Der Meulen Chair in Parkinson's Disease Research in honor of Robert Pasarow.

Dr. Lew is currently focusing on research in new pharmacologic treatments and biomarkers for Parkinson's disease. In addition, he is conducting clinical trials using new forms of botulinum toxin to treat focal dystonias. He is a Participating Scientist of both the Parkinson's Study Group and the Dystonia Study Group and is on the Medical Advisory Committee of the Musicians with Dystonia Program.

He is an author on more than 100 peer reviewed articles on PD and other movement disorders. He has served on the Board of Directors of the USC-CRO and is member of the Center for Human Studies Leadership Group for the USC CTSI.

He is on the Editorial board of *Parkinson's Disease and Related Disorders*. He is an ad hoc reviewer for *Neurology*, *JNNP*, *International Journal of Neuroscience*, *Movement Disorders*. In addition, his own original clinical and research articles and abstracts have been published in such prestigious journals as *JAMA*, *Science*, *Movement Disorders*, *Neurology*, *Annals of Neurology*, *American Journal of Psychiatry*, *Archives of Neurology*, *Journal of the American Geriatrics Society*, *Expert Reviews in Neurotherapeutics*, *Issues in Law and Medicine*, *Neurosurgery*, *Human Brain Mapping*, *American Journal of Human Genetics*, *Clinical Journal of Pain*, *Clinical Neuropharmacology*, *Neurologic Clinics*, *Neurobiology of Aging*, *Current Medical Research and Opinion*, *Pharmacotherapy*, *Journal of Neurological Sciences*, and *Expert Review of Neurotherapeutics*, *Human Genetics*, *International Journal of Neuroscience and Parkinsonism and Related Disorders*, *International Journal of Neuroscience*, *Tremor and Hyperkinetic Movements*, and *Journal of Neurotransmission*.
