

Jon Stoessl is Professor & Head of Neurology and Director of the Pacific Parkinson's Research Centre and National Parkinson Foundation Centre of Excellence at UBC and Vancouver Coastal Health. He holds a Tier 1 Canada Research Chair in Parkinson's Disease and directs the CIHR Team in Parkinson's and a Pacific Alzheimer Research Foundation Centre grant on Overlap Syndromes Resulting in Dementia. Dr. Stoessl is on the editorial boards of *Annals of Neurology*, *Lancet Neurology* and *Movement Disorders* and has served on numerous scientific advisory boards, including Canadian Institutes of Health Research, Ontario Mental Health Foundation (Chair), Huntington Society of Canada, Tourette Syndrome Association and National Parkinson Foundation. He is the past Chair of the Scientific Advisory Board for the Parkinson Society of Canada and currently chairs the Interdisciplinary Adjudication Committee of the Canada Research Chairs program. He serves on the International Executive Committee of the Movement Disorders Society, chairs the Awards Committee of the MDS and is co-chair of the Mentoring Committee for the Parkinson Study Group. In 2007, he was appointed a Member of the Order of Canada. Dr. Stoessl's research involves the use of positron emission tomography to study Parkinson's disease and related disorders, including the use of imaging as a biomarker, the basis for complications of treatment and mechanisms of the placebo effect. He has published more than 220 papers and book chapters.
