

Ryan J. Uitti, MD is Professor and Chair of the Department of Neurology at Mayo Clinic in Florida. He has been a consultant in Neurology at Mayo Clinic since 1994. Dr. Uitti trained at the University of Saskatchewan, Mayo Clinic in Minnesota and completed a two-year fellowship in movement disorders at the University of British Columbia. He attended his first APRD predecessor congress in 1985. He is a board-certified neurologist and active in clinical research of movement disorders, particularly dealing with natural progression study and therapeutic trials involving both pharmacological and surgical therapies. He has published extensively in peer-reviewed journals and serves as Associate Editor of NEUROLOGY, where his portfolio includes all movement disorders submissions. He is a fellow of both the American Academy of Neurology and American Neurological Association.
