

THE NEW WOLTERS
IAPRD-authorized, practical textbook
45 chapters
75 world-wide recognized authors
Numerous video-fragments

See Table of contents below

Parkinson Disease and other Movement Disorders: Motor Behavioural and Behavioural Motor Disorders offers an up-to-date multidisciplinary overview of movement disorders, provided by world-wide recognized authors. Following an introduction with functional anatomy, physiology and pathology in protein aggregation disorders, this book deals with the aetiology, pathophysiology, diagnostic and differential diagnostic procedures and, above all, conventional, pharmacological and neurosurgical strategies in movement disorders.

This book gives the essential tools to recognize, interpret and understand the clinical manifestations and underlying pathophysiology, and to select best therapeutical strategies in the diseases discussed. It is not only an excellent practical source for medical and allied health professionals, but also for basic scientists who seek a comprehensive in-depth translational survey.

“THIS BOOK [...] SHOULD BE PART OF EVERY MOVEMENT DISORDERS SPECIALIST’S LIBRARY.”

Karen Frey in World Neurology 2014

CONTENTS

Authors | 13
Abbreviations | 19
Motor Behavioural Disorders and Behavioural Motor Disorders | 29
Erik Ch. Wolters & Christian R. Baumann

Part I Basic Introduction

- 1 Physiology of Behaviour | 33
Mark Hallett
- 2 Basal Ganglia | 45
Henk J. Groenewegen
- 3 Role of the Cerebellum | 79
Tom J.H. Ruigrok
- 4 Neuropathology in Movement Disorders | 107
Wilma D.J. van de Berg, Dagmar H. Hepp & Annemieke J.M. Rozenmuller

Part II Hypokinetic Motor Behavioural Disorders

- 5 Parkinson's Disease | 149
Erik Ch. Wolters, Hans de Munter & Harry Steinbusch
- 6 Synchronized Neural Oscillations and the Parkinsonian State | 163
Ashwini Oswal, Vladimir Litvak & Peter Brown
- 7 Autonomic Manifestations in Parkinson's Disease | 183
Elisaveta Sokolov & K. Ray Chaudhuri
- 8 Neuropsychiatric Manifestations of Parkinson's Disease | 193
Daniel Weintraub, Lama Chahine & Matthew B. Stern
- 9 Sleep-wake Disorders in Parkinson's Disease | 217
Christian R. Baumann
- 10 Diagnosis of Parkinson's Disease | 229
Kathrin Brockmann & Daniela Berg

- 11 Conventional Treatment in Parkinson's Disease | 243
Jay A. van Gerpen
- 12 Conventional Treatment-related Motor Complications: Their Prevention and Treatment | 255
Fabrizio Stocchi
- 13 Deep Brain Stimulation in Parkinson's Disease | 271
Anne-Catherine M.L. Huys, Julien E. Bally & Pierre Pollak
- 14 Continuous Dopaminergic Stimulation in Parkinson's Disease | 287
Angelo Antonini & Francesca Mancini
- 15 Pathology of Parkinson's Disease | 303
Glenda Halliday, Karen Murphy & Heidi Cartwright
- 16 Genetic Parkinsonism | 321
Shinsuke Fujioka & Zbigniew K. Wszolek
- 17 Vascular Parkinsonism | 363
Barbara Pickut
- 18 Drug-induced Parkinsonism | 373
Andrzej Friedman, Yanush Sanotsky & Erik Ch. Wolters

- 19 Multiple System Atrophy | 385
Florian Krismer & Gregor K. Wenning
- 20 Progressive Supranuclear Palsy | 399
Christian R. Baumann & Andrew Lees
- 21 Corticobasal Degeneration and Corticobasal Syndrome | 411
Melissa J. Armstrong & Anthony E. Lang

Part III Hyperkinetic Motor Behavioural Disorders

- 22 The Classification of Dystonia | 425
Karen Frei & Daniel Truong
- 23 Dystonia in Neurological Diseases | 437
Franziska Hopfner & Susanne A. Schneider
- 24 Treatment of Dystonia | 453
Dirk Dressler
- 25 The Pathophysiology of Tremor | 461
Rick C. Helmich
- 26 Tremor in Neurological Diseases | 479
Alex Rajput

- 27 Tremor Treatment | 501
Deepa Pothalil & Francois J.G. Vingerhoets
- 28 Myoclonus | 513
Rodi Zutt, Jan Willem Elting & Marina A.J. Tijssen
- 29 Chorea | 535
Jan Roth
- 30 Ballism | 557
Daniel Waldvogel
- 31 Tics | 561
Andreas Hartmann
- 32 Mitochondrial Movement Disorders | 577
Erik Ch. Wolters, Hans H. Jung & Christian R. Baumann

Part IV Dyskinetic Motor Behavioural Disorders

- 33 Ataxia: Pathophysiology and Classification | 589
Berry Kremer

- 34 Ataxia: Clinical Considerations, Diagnosis and Treatment | 613
Alexander Tarnutzer

Part V Behavioural Motor Disorders

- 35 REM Sleep Behaviour Disorder | 651
Ronald B. Postuma
- 36 Sleep-related Movement Disorders | 663
Claudio L.A. Bassetti
- 37 Psychogenic (Functional) Movement Disorders | 675
Isabel Pares & Mark J. Edwards
- 38 Movement Disorders in Psychiatry | 691
Marie-An C.J. de Letter & Erik Ch. Wolters
- 39 Attention-Deficit/Hyperactivity Disorder | 705
Manfred Gerlach & Marcel Romanos
- 40 Obsessive-Compulsive Disorder | 715
Jesse M. Crosby & Thröstur Björgvinsson
- 41 Impulse Control Disorders | 729
Valerie Voon

Part VI Phenomenology

- 42 The Art of Phenotyping in Movement Disorders | 749
Daniel Waldvogel
- 43 Scales and Tests in Movement Disorders | 755
Pablo Martínez-Martin, Carmen Rodríguez-Blázquez & Mónica M. Kurtis
- 44 Clinical Neurophysiology in Movement Disorders | 771
John N. Caviness
- 45 Neuroimaging in Movement Disorders | 789
David J. Brooks
